

# PAWEL KULA

## Senior Frontend Developer | Freelancer

Entrepreneur & software consultant, experienced in all aspects of creating & managing web-based projects.

I worked with many different types of clients from early stage startups to global corporations (including well-known brands like Metlife, Barclays, Royal Bank of Canada, Zalando, Delivery Hero, Axel Springer).

I am a joyful, people person, always interested in learning new things and getting things done. I love my job!

More details: <http://www.pawelkula.com/frontend-developer.html>

Personality type: **ENTJ**

“Where there's a will, there's a way”

## WORK EXPERIENCE

**Delivery Hero SE, Senior Frontend Dev, Sep – Dec 2019**

- Developing the largest food ordering platform in Austria (mjam.net)
- Selecting frontend candidates, conducting technical interviews
- Adding new features, fixing bugs
- Onboarding new team members, mentoring junior staff
- JavaScript, SSR, React, Redux, PostCSS, HTML5, WebPack

**Axel Springer SE, Senior Frontend Dev, Jan – May 2019**

- Co-created the new [bild.de](http://bild.de) - the most visited website in Germany using Vue tech stack (worked in the team of eight frontend developers)
- Co-created the new Video Player for Axel Springer companies

### Digital agencies, SME comp., Web Developer 2002 – 2013

- Created web apps & responsive websites using various frontend technologies (PHP, MySQL, JavaScript, HTML)

Besides coding, I may also help you:

- create a friendly environment for creative people
- improve your internal processes related to the software development lifecycle
- share my quite rich working experience
- improve cooperation between business and developers
- take part in the recruitment processes

## MY REQUIREMENTS

I am looking for a company when I:

- can utilise my skills and experience and
- can work with smart and witty people and
- create something that can improve people's life and
- enjoy autonomy

I am interested in:

- freelance (contract) roles only (min 3 months)
- frontend projects only with React (or VueJS in some cases) - the more immature the project is, the more unknowns and risk - the better :)
- onsite in Berlin, with some remote option from time to time
